LIGHT UP YOUR LIFE

COLLECTION 2015

DOME 6500 BS - © Nicolas Schimp - Architecte Jacques Dupuis

Born in 1973, Hind Rabii holds an industrial engineering degree from the Institut Supérieur Industriel in Verviers, Belgium. And so, with this her technical expertise and a passion for fashion and creativity, it seemed obvious that Hind would be drawn towards a career in design.

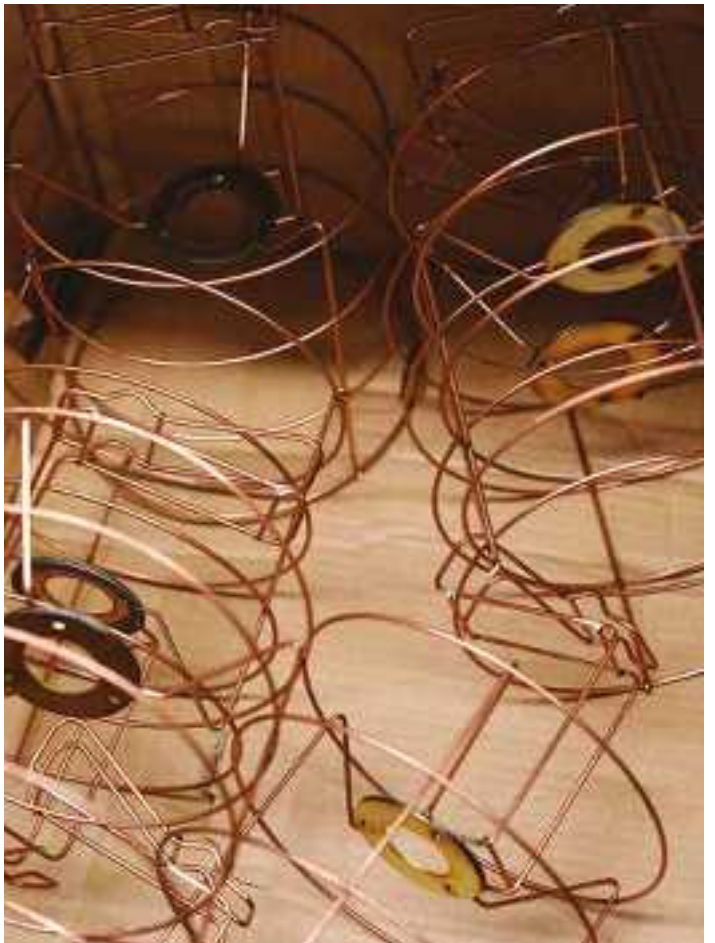

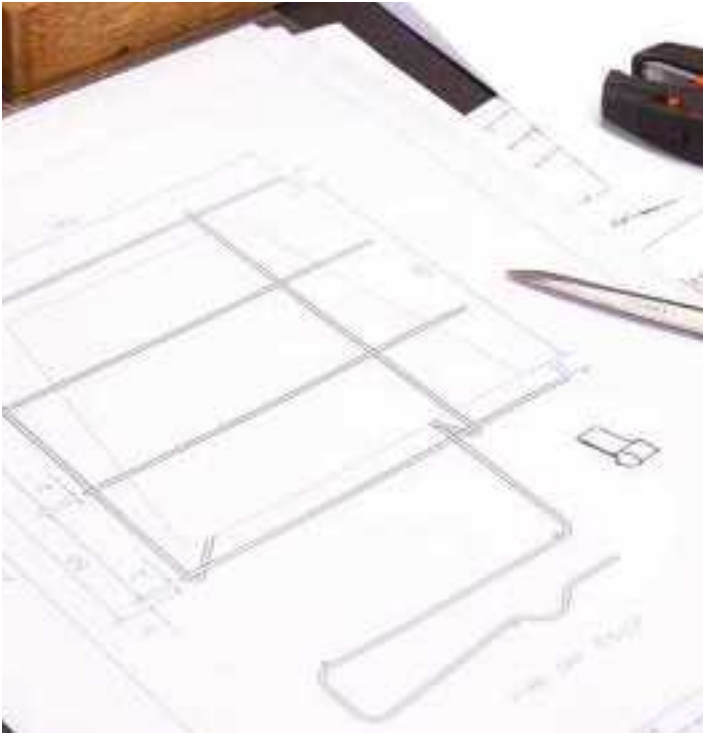

It was while researching lighting for her own home that the designer Hind Rabii decided to commission some lighting pieces which met her standards of excellence, refinement and luxury. The company which bears her name was established in 1997, with the simple aim of offering top-of-the-range Belgian-made lighting to a discerning clientele.

Every one of their table, wall, pendant, floor or reading lamps is the result of a long design and research process employed by Hind and her husband Michel Orban. Using 3D design and plans, Hind Rabii and her husband will set about making models and conducting trials in their workshops in the Stembert business park. Their premises consist of a woodworking studio, a metallurgy and finishing workshop and a workshop entirely given over to the production of lampshades. All their glassware is manufactured by Italian master glassmakers.

Although they already offer a very extensive range of products, it is the customer who selects the lampshade's finish, colour, materials and size to suit the space in which it will be used. Lastly, in spite of having a very comprehensive product catalogue, Hind Rabii is always striving to offer its customers the chance to buy entirely custom-made lighting which still bears its signature and refined and elegant style and which is 100% Belgian made. Hind Rabii is also committed to using only European-made materials.

In 2012, Hind Rabii launched its first collection of outdoor lighting: Butterfly and Terra.

Buoyed by the success of the collection, Hind Rabii is constantly expanding to keep adding that extra touch of magic to our gardens, patios and poolsides.
